PAPER MILL CHAIN

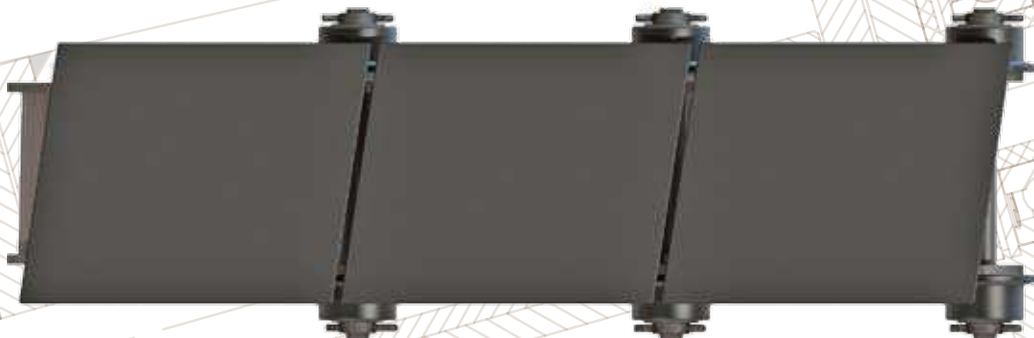

FLAT TOP

V-TOP

SLANTED TOP

Complete conveyor systems available in:
Flat Top • V-Top • Gull Wing • Apron
Slanted Top • Saddle Top • Carousel

- All Chain Parts are Fabricated For Specific Applications
- Anti-Friction Bearings and Custom Roller Materials Available
- Single and Multiple Strands
- Multiple Varieties of Steel and Treatments For Your Needs
- Sealed For Life Rollers and Greasable Alamite Fittings Offered
- Replacement OEM Parts Offered for Repair or Rebuild
- Pitch Availability From 2.50" – 24"

Custom bearing types available
for your application.

DEBARKER INFEED CHAIN

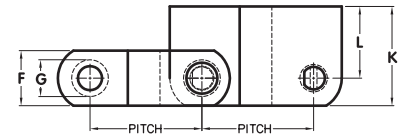

- Fabricated Heavy Duty
- Induction Hardened Pins Available
- Offset Style for Uniform Wear
- Replaces Cast Chain
- High Strength Alloy Steel Parts
- Precise Press Fits

DRAG CHAIN

Allied Locke's rugged welded steel drag chains are an excellent upgrade or replacement for your drag conveyors. In addition to our standard line of drag chain with carbon steel barrels, we also offer specially heat treated, heavy duty alloy steel barrels for extended life in the most extreme environments. We offer custom heat treatment options, including induction hardening for the ultimate in strength. As with all of our high-quality product, our drag chain can be engineered to meet your company's needs.

Chain Number	Pitch (P)	Working Load (lbs.)	Avg. Ultimate Strength (lbs.)	Rivet Diameter (A)	Sidebar Thickness (E)	Side Bar Height (F)	Sprocket Surface (D)	Length of Bearing (X)	Overall Width (JK)
